GoodOil Conference

About the Conference

The RIU Good Oil Conference has seen many ups and downs in the oil and gas industry throughout its past 17 years, and the 18th event looks like seeing a beginning of the resurgence of that industry.

With oil prices moving higher every day and the need for more and more gas domestically and abroad, the future looks brighter for the oil and gas industry, and especially for those small to mid-cap companies involved in exploration for oil and gas.

The RIU Good Oil Conference is the only Conference in Australia that features the best of the junior to mid-cap oil and gas companies as well as a few major ones as well.

Now is the time to get up-to-date on this growing industry, and get along to the RIU Good Oil Conference on 12 & 13 September at the Hyatt Regency Hotel, Perth.

The conference will take place over two days on Wednesday 12 and Thursday 13 September. The conference will include an exhibition area with both booths and poster boards. The exhibition area will be open to all delegates throughout the duration of the conference.
